Screen Share Exam Process:

You will need a personal Windows 10 or 11 laptop with full admin rights for this to work. Laptop given by your employer will not work. Better if you have Windows 11.

Screen share/Proxy exam procedure:

1) You will need a personal **Windows** laptop/desktop (with admin rights to install a software). MacBook laptop or laptops given by work/office will not work.
2) We will install a software in your laptop before the exam starts. (We will have to turn off firewall and anti-virus during the exam).
3) This is a custom software; it will not be visible in Taskbar or task manager.
4) Our software will share the screen during the exam.
5) You will start the exam and finish the verification as if you are taking the exam alone.
6) Once the verification with the proctor is done, you will start the exam (Questions/Answers page).
7) Once you see the first questions on the screen, **you just focus on the screen and do nothing (do not move your mouse or click answer).**
8) We will solve the question, click the answer option and go to the next question. You will **just pretend to look at the screen**.
9) We will finish solving all the questions and submit the exam.
10) You will see the score/marks or pass-fail status or **get information about when you will get the result**. We will close the exam window.

Note:
Our screen sharing software cannot be detected by proctor software.
You will pay us after you pass the exam.
We will remove the software after the exam is done.

****Exam registration and exam fee are your responsibility.
****You will first agree with us about the exam timing before you schedule the exam.

How to work with us:

1. Tell Us Which Exam You Need Help With
Please mention the exam name/exam code and share the timeline when you are planning to do it. Also mention the location you are at so that one of our team members can help you in your current time zone.
If you are not sure about the exact exam code, you can mention which domain/subject your exam belongs to and we will help you with a list of exams offered in that area.

2. We Will Tell You the Process
If your exam is one of the [exams that we support](), we will tell you how to proceed further (including how to register for the exam, choose exam proctor etc.) We will give you step by step process that you can follow to make it easy for you.

3. We will disclose the fee upfront
Our fee for the screen share service starts at $99 (USD) for most exams. Some advanced level exams are charged a higher fee. Talk to us for your specific exam. This does not include the official exam registration fee. You will need to register for the exam yourself and pay the fee. We do not register on your behalf.

4. We Will Coordinate with You before the Exam Day
Once you register and confirm the exam schedule with us, we will be in standby to help you on your exam day. We will tell you what to do, what to study (optional) and how proceed with the exam. **WhatsApp support included and you should have a working Whatsapp number.**

5. What happens on the exam day?
Read these steps carefully -
   A. **Install a software** – We will ask you to install a software in your laptop/desktop PC which enables us to initially access your laptop and install our custom software. We generally perform this step at least 24 hours before the exam.
   B. We will test again and make sure screen share process works usually 1 hour before the exam.
   C. When the exam kicks off and the proctor releases your exam after initial verification with you, and **when the first question appears on the screen we will start marking the correct answers.**
   D. You will pretend to read the questions (**You will just hold the mouse but you will NOT click or move the mouse**). We will be marking the correct answers for you remotely and submit the exam.
   E. The custom software that we will install, cannot be detected by the proctor (human/exam software). You will need a Windows laptop/desktop with full admin rights for this to work.

6. We will also **uninstall** the software once exam is done. And turn of your firewall and anti-virus.

Which exams are supported:

List of exams we currently support can be found here – (more will be added soon). If your exam is not listed, check back soon or submit a request to add it in our list.

Cost of the exam service
Most exams are done with low cost of $99 (USD). Some exams are costly, some exams are cheaper. Talk to us for the exact fee and discounts deals that may be available time to time.

All exam service offered comes with 100% passing guarantee.
You will only pay after you pass the exam.
